2 DESCRIPTION OF SERVICES

2.1 Introduction

The purpose of this Request for Proposals (RFP) is to solicit proposals from qualified consultants for the Greater Madison MPO Regional Safety Action Plan (Safety Action Plan). The Safety Action Plan will help the MPO and our agency partners to identify and respond to trends in transportation safety and build a safe transportation system for users of all modes. The primary deliverables will be the Regional Safety Action Plan (Phase 1) and a SS4A FY'23 Implementation Grant application (Phase 2).

2.2 About the Greater Madison MPO

The Greater Madison MPO (the MPO) leads the collaborative planning and funding of a sustainable, equitable transportation system for the Greater Madison region. The MPO is responsible for comprehensive planning and decision making to build agreement on transportation investments that balance roadway, public transit, bicycle, pedestrian and other transportation needs to achieve an exceptional quality of life for all within the region.

The [MPO's Metropolitan Planning Area](#) is located entirely within Dane County, WI, including the:

- Cities of Madison, Fitchburg, Middleton, Monona, Stoughton, Sun Prairie, and Verona.
- Villages of Cottage Grove, Cross Plains, DeForest, Maple Bluff, McFarland, Oregon, Shorewood Hills, Waunakee, and Windsor.
- Towns of Blooming Grove, Burke, Dunn, Madison, Middleton, Westport, and a portion of the Towns of Berry, Bristol, Cottage Grove, Cross Plains, Dunkirk, Oregon, Pleasant Springs, Rutland, Springfield, Sun Prairie, Verona, and Vienna.

2.3 Background Information

In May of 2022, the US Department of Transportation (USDOT) published a notice of funding opportunity for the Safe Streets and Roads for All (SS4A) Discretionary Grant Program. This program provides funding to support planning, infrastructure, behavioral, and operational initiatives to prevent death and serious injury on roads and streets involving all roadway users.

The MPO is seeking a consultant to develop a Regional Safety Action Plan, following the Safe System Approach, that meets the specified program criteria set forth in the SS4A program, allowing the MPO and our agency partners to pursue SS4A Implementation Grant funding. Currently, the City of Madison is the only municipality in the MPO Planning Area that is eligible to pursue a SS4A implementation grant as the city has an adopted Vision Zero Action Plan. The city did in fact apply for a FY '22 Implementation Grant. In addition to preparing the safety action plan, the selected consultant will also assist the MPO and participating municipalities in developing and submitting an application for the FY 2023 SS4A Implementation Grant. This assumes that there is enough interest by suburban municipalities in the MPO Planning Area through the development of the Plan to participate in the grant application and commit to providing the required local match funding for the projects included in the application.

2.5 Project Description, Schedule, Work Tasks, and Anticipated Budget

The scope of services for this project involves two phases:

- Phase 1) Develop a Regional Safety Action Plan
- Phase 2) Apply for FY 2023 Safe Roads and Streets for All (SS4A) Implementation Grant Funding

Phase 2 will only go forward if there is enough interest generated from local agency partners during Phase 1 of this project and a sufficient number of projects generated with local commitment to provide the required local match funding.

The suggested general tasks described below are based upon the SS4A program guidance and MPO staff's understanding of them. The tasks have purposefully been kept fairly general. Respondents should build on these general tasks, describing the approach to be taken for each one, identifying more detailed sub-tasks, and summarizing the work products and detailed deliverables associated with each task. Tasks can also be combined, subdivided, and/or re-ordered as deemed appropriate. The tasks, deliverables, and personnel and budget assigned to them must be clearly identified. Respondents are free to suggest additions, and/or modifications to the tasks included within this scope as deemed appropriate given the overall project purpose and to fit within the anticipated budget.

The total anticipated budget for the consulting services is in the range of \$125,000 to \$150,000, but is somewhat flexible and will depend upon the final agreed upon work plan. Cost will be evaluated based on the best value as determined by the total cost as well as the overall composition of the cost based on the project approach, scope of the work plan, and expertise of the project team. In order to stretch the funding available, the consultant is encouraged to suggest opportunities for MPO staff to provide support for the project. The City reserves the right to contract for all or only parts of the work described in this RFP. Please note: As stewards of public funds, the City maintains all adopted budgetary parameters in the performance of its contracts. The ability of the successful proposer to offer the lowest cost and maintain a sense of fiscal responsibility shall be favorably considered in the ranking and award of a contract.

A January 2023 kickoff is expected for this project with an anticipated completion date of September or October 2023 (dependent upon FY 2023 SS4A NOFO deadlines).

Excluded from Scope

Given the MPO's existing transportation network and traffic safety data sets, it is not anticipated that any additional data will be required to be purchased or developed for this project; if the respondent identifies any additional desired data needs, the purchase or development of this data will be the responsibility of the consultant as part of this project and should be included in the cost proposal.

Robust public engagement focused on safety was conducted as part of the MPO's update to the Regional Transportation Plan, as well as by the Dane County Traffic Safety Commission. MPO staff will summarize

public engagement activities and provide relevant findings to the consultant. The scope for this project does not include any additional public engagement activities, unless deemed necessary by the consultant. If any additional public engagement is conducted as part of prioritization of safety projects and strategies, the MPO and local agency staff will lead that effort.

1. Develop Work Plan (Phase 1)

The Consultant shall develop a detailed work plan for the project. The work plan should include:

- Task-by-task description of categorized work elements delineating the roles of the Project Manager and other members of the Consultant Team.
- Implementation schedule showing activities, milestones, dates, and deliverables.
- List of data needs, desired MPO staff support, and other resources the Consultant Team will need in order to successfully complete the project tasks.
- Project budget showing projected work, staff assigned, hourly rates, and materials, travel, and other expenses.

An initial kickoff meeting/teleconference between the Consultant Team and Project Staff Team will be held following contract execution to initiate the project, discuss details of the proposed work plan (including any potential modifications from that outlined in the proposal) and the schedule, and define project management roles and responsibilities. This will help determine any unresolved issues before finalizing the detailed work plan.

The work plan should include suggested conference calls, meetings, and other means to manage the work activities and facilitate coordination with the Project Staff Team. The work plan should also include two presentations to the MPO's Technical Coordinating Committee and one less-technical presentation to the MPO Policy Board. Additionally, a focus group meeting with project stakeholders (primarily local/county public works/transportation staff) early in the planning process is desired as well.

The schedule should allow time for the Project Staff Team to review and comment on draft deliverables prior to preparation of final versions. Methods should be suggested to communicate the process, analysis, decision-making, conclusions, and recommendations in an understandable manner.

Progress reports shall be provided with a summary of work completed in each task during the billing period and a summary of tasks to be completed in the next billing period.

Deliverables:

- Final detailed work plan with milestones, tasks, schedule, and coordination details
- Summaries of check in/coordination conference calls/virtual meetings
- Monthly invoicing and progress reports
- PowerPoint presentations to MPO Technical Committee (minimum of 2) and Policy Board (minimum of 1) explaining the analysis, plan, prioritization of projects, etc.

2. Analysis of Existing Transportation System Safety Performance (Phase 1)

The Consultant will complete an analysis of existing conditions and historical trends that provides a baseline level of crashes involving fatalities and serious injuries within the MPO planning area, including an analysis of locations where there are crashes and the severity of the crashes, as well as contributing factors and crash types by relevant road users. An analysis of systemic and specific safety needs should also be considered, to the extent practical with existing data, with a focus on equity and the MPO's identified [environmental justice priority areas](#). The analysis will focus on arterial and collector level roads within the MPO planning area, but may include analysis of local road safety to the extent practical. The MPO will provide all data required for this analysis as indicated in the above Existing Studies and Data section, including crash data since 2010,

intersection safety network screening results, and a regional High Injury Network (HIN) that is currently under development.

Deliverables:

- Technical memo summarizing existing transportation system safety performance

3. Review of Policies and Identification of Best Practices (Phase 1)

The Consultant will conduct a literature review with an overview of safety planning practices, the state of national policies and research, and highlights from peer safety efforts. The Consultant will review FHWA and Wisconsin Department of Transportation (WisDOT) reporting requirements, methods by which other states and MPOs set federal safety targets, and assessments of the most effective methods used to achieve outcomes. The Consultant will also complete an assessment of current MPO and partner agency policies, plans, funding programs, guidelines, and/or standards to identify opportunities to improve how processes prioritize transportation safety.

Deliverables:

- Technical memo summarizing assessment of regional safety-related policies, plans and programs, and identification of national best practices to prioritize transportation safety

4. Prioritization of Safety Strategies and Improvement Projects (Phase 1)

The Consultant will coordinate with the MPO's local agencies to develop and refine a prioritized list of safety strategies and improvement projects that will include all modes, with an emphasis on vulnerable roadway users, and equity and environmental justice considerations. Strategy and project prioritization should be developed using the Safe System Approach, with a primary focus on safe roads and safe people. Both infrastructure (such as walkway/bikeway/roadway designs, intersection and crossing designs, traffic calming and speed management, signage and signalization, etc.) and non-infrastructure (including education and outreach) safety strategies should be included.

Upon consultation with local agencies (up to ten (10) 2-hour meetings with local agency staff), the Consultant will identify candidate transportation safety projects to be included in future rounds of application for SS4A implementation grant funding and other relevant safety funding opportunities. Identification of candidate projects will include preliminary project scope, project justification, and proposed schedule of implementation over the following five years.

Deliverables:

- Technical memo summarizing, listing, and describing the prioritization of regional safety strategies and improvement projects

5. Regional Safety Action Plan (Phase 1)

The Consultant will develop a final Safety Action Plan (which includes all required components for the Safe Streets and Roads for All – SS4A – grant application) documenting the outcomes and information and findings gathered in the previous tasks. MPO staff will take the lead on developing and documenting leadership commitment and goal-setting, planning structure, and public engagement activities.

The Safety Action Plan will include strategies for implementation as well as the methodology to measure and report progress. The Safety Action Plan should develop both regional and local frameworks for action. The regional safety framework will address safety within MPO roles, including regional goals and plans, project evaluation and prioritization, funding allocation, regional coordination, and federal performance targets. The local framework will establish best practices for local governments in the Greater Madison MPO planning area, including safety-focused project development and "Vision Zero" type strategies. The Safety Action Plan will discuss implementation through the adoption of revised or new policies, guidelines, and/or standards, as appropriate. The

Safety Action Plan will guide MPO partnering agencies' efforts for improving transportation safety and reducing roadway fatalities and severe injuries each year on the regional transportation system.

Deliverables:

- Final Regional Safety Action Plan for the Greater Madison MPO Planning Area

6. SS4A Implementation Grant Application (Phase 2)

After completion of the Regional Safety Action Plan, the Consultant will, with support from MPO staff, prepare the required submission material for the SS4A Implementation Grant for FY 2023, expected to be due in September of 2023, if sufficient projects and interest from local agencies is generated during Phase 1 of this project. The MPO anticipates the application will request between \$10- \$20 million in SS4A funding in partnership with local agencies. The Consultant will:

- Utilize all resources provided by the USDOT to ensure that the MPO's SS4A Implementation Grant application meets eligibility requirements
- Review all forms required for submission to ensure completeness and identify areas to improve the likelihood of the MPO's being awarded the Implementation Grant
- Draft all required forms and documents required for Implementation Grant submission

1. **General.** Throughout this document, "City of Madison," "City" and "Purchasing" shall be synonymous and mean the City of Madison. The words "bid" and "proposal" are synonymous, as are the words "bidder," "proposer" and "contractor." The phrases "request for proposal," "invitation for bids," "request," "invitation," and "solicitation" shall also be synonymous.
As applied to the winning or selected bidder, the words "bid," "proposal," and "contract" are synonymous.
 2. **Entire Agreement, Order of Precedence.** These standard terms and conditions shall apply to any Purchase Order issued as a result of this Request for Bid/Proposal, except where expressly stated otherwise in the RFP or in a written instrument covering this purchase signed by an authorized representative of the City and the Contractor, in a form approved by the City Attorney (a "Separate Contract"). If such a separate contract is executed it shall constitute the entire agreement and no other terms and conditions, whether oral or written, shall be effective or binding unless expressly agreed to in writing by the City.
If a Separate Contract is not executed, these Standard Terms and Conditions, the City's request for proposals, the version of the vendor's bid that was accepted by the City, and the City's Purchase Order (if any) shall constitute a contract and will be the entire agreement.
Order of Precedence: If there is a conflict between this Section A and any terms in the vendor's accepted bid or proposal, this Section A shall control unless the parties expressly agree to another order of precedence, in writing. If there is a conflict between this Section A and a Separate Contract, the terms and conditions of the Separate Contract shall control.
- I. TERMS FOR SUBMISSION OF BIDS: The following section applies to the bid/selection process only.**
3. This invitation for bids does not commit the City to award a contract, pay any costs incurred in preparation of bids, or to procure or contract for services or equipment. The City may require the bidder to participate in negotiation and to submit such additional price or technical or other revisions to his or her bids as may result from negotiation. The bidder shall be responsible for all costs incurred as part of his or her participation in the pre-award process.
The City reserves the right to accept or reject any or all bids submitted, in whole or in part, and to waive any informalities or technicalities which at the City's discretion are determined to be in the best interests of the City. Further, the City makes no representations that a contract will be awarded to any offeror responding to this request. The City expressly reserves the right to reject any and all bids responding to this invitation without indicating any reasons for such rejections(s).
The City reserves the right to postpone due dates and openings for its own convenience and to withdraw this solicitation at any time without prior notice.
 4. **Addenda.** Changes affecting the specifications will be made by addenda. Changes may include, or result in, a postponement in the bid due date. Bidders are required to complete the Bidder Response Sheet, acknowledging receipt of all parts of the bid, including all addenda.
 5. **Price Proposal.** All bidders are required to identify the proposed manufacturer and model, and to indicate the proposed delivery time on the attached Proposal Form. Failure to do so may cause the bid to be considered not responsive. If desired, the bidder may include product literature and specifications. The price quoted will remain firm throughout each contract period. Any price increase proposed shall be submitted sixty (60) calendar days prior to subsequent contract periods and shall be limited to fully documented cost increases to the bidder which are demonstrated to be industry-wide.
 6. **Price Inclusion.** The price quoted in any bid shall include all items of labor, materials, tools, equipment, and other costs necessary to fully complete the furnishing and delivery of equipment or services pursuant to the specifications attached thereof. Any items omitted from the specifications which are clearly necessary for the completion of the project shall be considered a portion of the specifications although not directly specified or called for in these specifications.
 7. **Pricing and Discount.**
 - a. Unit prices shown on the bid/proposal or contract shall be the price per unit of sale (e.g., gal., cs., doz., ea., etc.) as stated on the bid/proposal or contract. For any given item, the quantity multiplied by the unit price shall establish the extended price. If an apparent mistake exists in the extended price, the unit price shall govern in the bid/proposal evaluation and contract administration.
 - b. In determination of award, discounts for early payment will only be considered when all other conditions are equal. Early payment is defined as payment within fifteen (15) days providing the discount terms are deemed favorable. All payment terms must allow the option of Net 30.
 8. **F.O.B. Destination Freight Prepaid.** Bid prices must include all handling, transportation and insurance charges. Failure to bid FOB Destination Freight Prepaid may disqualify your bid.
 9. **Award.**
 - a. The City will have sole discretion as to the methodology used in making the award. Where none is specified, the award will be made to the lowest responsible bidder in compliance with the specifications and requirements of this solicitation.
 - b. The right is reserved to make a separate award of each item, group of items or all items, and to make an award in whole or in part, whichever is deemed in the best interest of the City.
 10. **Responsiveness and Responsibility.** Award will be made to the responsible and responsive bidder whose bid is most advantageous to the City with price and other factors considered. For the purposes of this project, responsiveness is defined as the bidder's conformance to the requirements of the solicitation. Being not responsive includes the failure to furnish information requested.
Responsibility is defined as the bidder's potential ability to perform successfully under the terms of the proposed contract. Briefly, a responsible bidder has adequate financial resources or the ability to obtain said resources; can comply with required delivery taking into

account other business commitments; has a satisfactory performance record; has a satisfactory record of integrity and business ethics; and has the necessary organization, experience and technical skills.

The City reserves the right to refuse to accept any bid from any person, firm or corporation that is in arrears or is in default to the City, or has failed to perform faithfully any previous contract with the City. If requested, the bidder must present within five (5) working days evidence satisfactory to the City of performance ability and possession of necessary facilities, financial resources, adequate insurance, and any other resources required to determine the bidder's ability to comply with the terms of this solicitation document.

11. Cancellation.

- a. The City reserves the right to cancel this bid, in whole or in part, at any time for any reason. The City may, in its sole discretion and without any reason, cancel or terminate any contract or purchase order awarded as a result of this bid, in whole or in part, without penalty, by providing ten (10) days written notice thereof to the contractor.
- a. In the event the Bidder shall default in any of the covenants, agreements, commitments, or conditions and any such default shall continue unremedied for a period of ten (10) days after written notice to the Bidder, the City may, at its option and in addition to all other rights and remedies which it may have, terminate the Agreement and all rights of the Bidder under the Agreement.
- b. Failure to maintain the required certificates of insurance, permits, licenses and bonds will be cause for contract termination. If the Bidder fails to maintain and keep in force the insurance, if required, the City shall have the right to cancel and terminate the contract without notice.

II. CONDITIONS OF PURCHASE: The following section applies to purchases/contracts after the award. See Paragraphs 1 & 2 for applicability and order of precedence.

When alternates are bid/proposed, they must be identified by manufacturer, stock number, and the bidder/proposer is responsible for providing sufficient information to establish equivalency. The City shall be the sole judge of equivalency. Bidders are cautioned to avoid bidding alternates which do not meet specifications, which may result in rejection of their bid/proposal.
